Programs

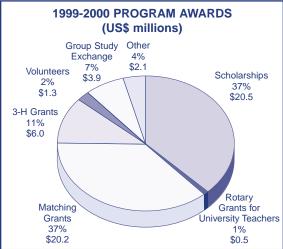

PolioPlus. In May 2000, the Rotary International Board of Directors "recognized PolioPlus as a special program of RI that has the highest priority over all other programs until the certification of worldwide eradication is achieved in 2005." By Rotary's centennial in 2005, contributions to the global polio eradication effort will surpass half a billion US dollars. Rotarians have mobilized by the hundreds of thousands to ensure that children are immunized against this crippling disease and that surveillance is strong, despite the poor infrastructure. extreme poverty, and civil strife of many countries. Since the PolioPlus Program's inception in 1985, more than 2 billion children have received oral polio vaccine. At that time there were 125 polio-endemic countries. Now, in 2000, that figure has declined to 30. To date, 122 nations around the world have benefited from PolioPlus grants. As of June 2000. Rotary has committed more than \$378 million to global polio eradication. 1999-2000 expenditures: \$36.9 million.

PolioPlus Partners is a program that allows Rotarians to participate in the polio eradication effort by contributing to specific social mobilization and surveillance activities in polioendemic countries. As such, it also supplements the funds available to complete the eradication of polio. As of 30 June 2000, 4,497 clubs in 418 districts have participated in 197 PolioPlus Partners projects, supporting National Immunization Days and other polio-eradication activities around the world.

Since 1978, 234 projects in 61 countries have been funded at a cost of more than \$62 million. In 1999-2000, 18 new projects approved. Program awards were \$6.0 million.
